

# HELPING BEHAVIOURALLY CHALLENGED STUDENTS DO WELL

TRAINING WITH INTERNATIONAL CHILD BEHAVIOUR EXPERT DR ROSS GREENE

**Say goodbye to conflict, screaming, time-outs, detentions and suspensions. Say hello to solving problems collaboratively and proactively.**

If all those consequences you've been using haven't improved the challenging behaviour of your child or student, then this workshop is for you!

To really address child behaviour, we need to focus on the problems that are causing that behaviour. Solve those problems collaboratively and proactively, and you'll not only improve the child's behaviour, you'll simultaneously improve your relationship, enhance communication, and teach a bunch of important skills.

In this highly popular training workshop, internationally recognised child psychologist and acclaimed author Dr Ross Greene, will train participants in the use of his empirically supported model, Collaborative and Proactive Solutions (CPS). This workshop introduces participants to the model and its use in a range of settings and is suitable for both professionals and parents.

## Recommendations

*I was just so impressed with this workshop. I thought it was just brilliant. It was like being given the missing piece of a puzzle to complete my transition over many years from the old fashioned authoritarian approach to discipline, to one that uses empathy and treats children with respect and dignity. I've always known what I wanted to achieve but lacked the skills and knowledge to do so as effectively as I wanted. This workshop helped me to see I've been focussing on the wrong things. How exciting. Many thanks. (Professional)*

*Thanks so much for hosting the workshop yesterday. It was super informative and my husband and I both feel we have a better understanding of the CPS model to support our 3 kids. I thought I'd cheekily offer our family if you need a volunteer case study for when Ross returns for advanced training! (Parent)*

# THE KIDS WE LOSE

A DOCUMENTARY FILM

## AUSTRALIAN PREMIERE SCREENING OF THE NEW DOCUMENTARY FILM THE KIDS WE LOSE

The Kids We Lose will premiere in Australia as part of Dr Ross Greene's 2019 Child Behaviour Workshop Series hosted by The Social Mind. Dr Greene is the Executive Producer of this documentary and will introduce the film and answer questions at the conclusion of the screening. Screenings are free in locations around Australia.

### ABOUT THE FILM

The Kids We Lose is a 90-minute documentary film about the human side of being a child or student with behavioural challenges, and the struggles faced by parents, educators, staff in facilities, mental health clinicians, and law enforcement professionals in trying to ensure that these kids receive the help they need.

The Kids We Lose also exposes the often brutal, inhumane ways in which kids with social, emotional, and behavioural challenges are treated in schools, inpatient psychiatry units, residential facilities, and prisons. Their hopelessness, misery, and frustration are palpable. The human toll is hard to fathom. But these are also the most expensive kids in our society. Doing the wrong thing costs a fortune. When we don't help our most vulnerable kids, we all lose.

And it's all so very unnecessary.

The Kids We Lose is not primarily about how to solve the problem. It is intended to heighten awareness of the problem and galvanise people to change things for the better.

The Kids We Lose premiered at the 2018 New Hampshire Film Festival and won the Best Feature Documentary Award. It has also been selected for the 2019 Los Angeles Women's International Film Festival.

This is a documentary that should be seen by community leaders, politicians, policy makers, school principals, anyone in a position to implement change in our community.
